Mr. Neil Rosen

Advisor

Honor Society and Key Club,

American Heritage School

Dear Mr. Rosen,

RE: APPRECIATION FOR THE SUPPORT TO BUILD THE AMERICAN HERITAGE HOSPITAL AT MYENDE LANDING SITE, LAKE VICTORIA, UGANDA

Chimpanzee Sanctuary & Wildlife Conservation Trust (CSWCT) is a non governmental organization established with the mission "To provide the understanding, appreciation and conservation of chimpanzees and their habitats in particular and wildlife in general". One of the programs that is implemented by CSWCT is the Ngamba Island Chimpanzee Sanctuary that provides for the welfare of rescued chimpanzees on behalf of the Government of Uganda. In addition, we have a community program called "Sustainable Living on Lake Victoria" through which we reach out to the local communities with great social and economic needs as they are neighboring Ngamba Island and a disadvantaged group being left out of government programs due to difficulty of accessibility to the islands. One of the projects we are implementing with one of the communities at Myende landing site is public health and sanitation.

I refer to the various communications on the above subject that we have had with Mama Linda Greenberg following her two visits to our project at Ngamba Island Chimpanzee Sanctuary.

I take this opportunity to send an appreciation and say **thank you** for the partnership that CSWCT is making with the Honor Society and Key Club through the American Heritage School to build a hospital at Myende Landing to support this disadvantaged group of people. Having the hospital built by July 2012 will be the best thing that would have ever happened to this group of people. We wish you all the best in securing the resources for this great project and we will be happy to provide the local support that we can.

Once again, thank you very much for the partnership.

Partners in the Welfare of Wildlife

Yours sincerely,

Lilly Ajarova
